When Operators Appeal to Congress Not to Remove 67-Cent Duty on Aupracite, Appeal Will be Rejected.

Madison, Wis., Oct. 10.-Secy. of the Navy Moody, addressing a great epublican meeting here tonight, held that the duty of 67 cents a ton on anthacite coal was "smuggled into the tanff act in a sneaking and cowardly manner," and ought to be repealed at the short session of Congress. "The

## COV. ODELL COES FOR OPERATORS

Asks Them: "What Do You Mean By Politicians?"

HE TELLS THEM WHO HE IS.

Represents Seven Million People Will Use Every Power at His Command to Relieve the Situation

New York, Oct. 10 .- "What do you mean by politicians? I want you and all operators to understand that I am the governor of New York, the chosen representative of 7,000,000 people, and that I am here in this matter solely in that capacity, and to relieve, if possible, an intolerable situation, And, what is more, I intend to use every power at my command to do it."

Gov. Odell made this statement to day to President Baer of the Reading road, in the presence of United States Senators Platt of New York and Quay and Penrose of Pennsylvania. It was the culmination of a heated interview in the office of Senator Platt and the result of the meeting between Gov. Odell and President Baer.

BAER IN BAD HUMOR.

Mr. Baer was not in the best numor when, accompanied by E. Thomas, chairman of the board of directors of the Erie railroad, he enference began by a statement made by Senator Penrose that the situation was becoming so serious that some solution must be found at once. He suggested that the operators should incline to some concessions toward a settlement "If you mean by that," said Pres dent Baer, "that we are to recognize the existence of a labor union, I tel you right now that the operators will consider no such proposition."

ODELL ON HIS FEET.

Gov. Odell was on his feet in an instant. Holding a half-burnt cigar in his hand, and white with excitement he said: "Are we to understand that no kind of conciliatory proposition would receive attention at the hands of the operators?' "I did not say that," answered Mr. Baer, "but I do say that we will not

accept political advice or allow the interference of politicians in this, our af-Then it was that Gov. Odell made the statement attributed to him at the beginning of this article.

BEGS GOVERNOR'S PARDON.

President Baer, evidently appreciat-ing that he had gone too far, bowed to Gov. Odell and said: "Governor, I beg your pardon. No personal affront was intended, and we will listen to any uggestions you may have to make But again I repeat that we must refuse to recognize the union represented by Mr. Mitchell."
"I do believe," said the governor,

"that your position, from a public view, absolutely untenable. If coal operators, railroad men and other business men can combine for mutual profit and protection, there is no reason why laring men should not.

What is the proposition?" asked Mr. "Just this," said Gov. Odell. "I am sure that the laboring organization of which Mr. Mitchell is head desires him to be fair with the general public. If the operators will consent to give the men 5 cents a ton increase, I will personally present it to the miners, and

I believe they will accept it. This is a fair proposition." MEANS RECOGNITION OF UNION. "Does this mean, Gov. Odell, that we

go, Mr. Thomas remarking that the Mr. Baer asked, "It certainly does," answered Gov. Odell quickly: "and there is no reason

why you should not." Mr. Baer and Mr. Thomas arose to Mr. Thomas remarking that the

matter would be presented to the other operators and that an early answer yould be forthcoming. Mr. Baer said We are to meet a committee of the Manufacturers' association on Tuesday, and we may have an answer then." The conference broke up. Mr. Baer and Mr. Thomas withdrawing. Senators Platt, Penrose and Quay talked over the matter for a short time and then separated, the two Pennsylvanians announcing that they would go back to Harrisburg and discuss the situation with Gov. Stone.

Gov. Odell was not in a talkative mood when he left the conference. He went directly to the Fifth Avenue hotel and during most of the afternoon received callers. Mayor Low, Anson G. McCook, Congresmen Lessler and Littauer and Senator Platt were among his callers. To one of these the governor said:

"The coal operators may postpone this matter until Tuesday, but I don't propose to postpone. They are not acting fairly toward the people. I believe I shall find some remedy."

MITCHELL MEETS ODELL.

About 5 o'clock John Mitchell, ac companied by L. N. Hammerling of Wilkesbarre, called and had a long conference. While this was going on a dispatch announcing that the operators refused to consider the terms offered by the governor was received.

When the conference was over Gov. Odell refused to say what had occurred, and Mr. Mitchell was equally reticent. It is believed that Gov. Odell presented his proposition for settlement to the leader of the miners' union and that Mr. Mitchell said he would present it to the district presidents, in the hope that it would be accepted.

PRAISES MITCHELL.

Gov. Odell said: "Mr. Mitchell was eminently fair, and showed every disosition to adjust the serious situation. With the announcement that all the conferees except Gov. Odeli had left town, some of the interest in the matter dropped. Gov. Odell, at a late hour, was asked: "Has it been suggest-ed that you call an extra session of the legislature?"

have not thought of it yet. As I said I am waiting for an answer from the operators."

The governor said tonight that he would go to Newburg tomorry to register and return on Monday morning. Then he said he would again take up the matter actively if no decision was arrived at by the miners and operators. He positively declined to talk further for publication.

According to the statements made by the operators, the prospects of a settlement are no more promising than they were yesterday. There is nothing to justify the assertion that negotia-tions will be resumed next Tuesday.

As one of the coal presidents put it,
"The incident is closed."
"The publicists," said this gentleman,
"made a number of suggestions, all of which we turned down. These in-cluded a 10 per cent increase in pay. a decrease of working hours and recog-

ition of the union, as well as a num er of other propositions which we re rard as equally undesirable. We foun t impossible to negotiate with them. What their next step will be I cannot say, but they will understand that we cannot be moved. I repeat we will not meet them again. It is frivolous ot meet them again. nd is bound to result in further illfeeling."

Another operator said: "It is not for us to consider mere matters of political expediency. Had so-called statesmen kept their hands off, the strike would have been settled long as W. have have been settled long ago. We have taken a stand for principle, and n amount of argument will budge us." J. P. Morgan, who conferred with several of the operators during the day would not discuss the latest developments.
